OUR STORY

The Story of Dubai National Saw Mill LLC (DNSM)
Building the Future, Rooted in Excellence

Founded in 1995 with a vision to deliver quality, reliability, and innovation in the building materials industry, Dubai National Saw Mill LLC (DNSM) has grown to become one of the most trusted names across the GCC region.

What began as a modest trading unit has evolved into a comprehensive, full-service organization—seamlessly blending global sourcing with an ever-expanding and diverse product portfolio. For over three decades, DNSM has played a key role in shaping the architectural landscape by supplying premium materials for commercial, residential, and industrial projects.

Backed by a dedicated team, robust affreightment facilities, and strong international partnerships, DNSM delivers unmatched reliability, value, and consistency. Every product is subject to rigorous quality control and aligned with international standards.

DNSM's Core Product Line Includes:

Natural Wood Veneer
Reconstituted Veneer
Toilet Cubicles
Lockers
PVC Edge Banding and Lipping
High-Pressure Laminates (HPL)
Acrylic Solid Surface
Standard and Fire-Rated Doors
Timber and Related Products

DNSM sources large volumes of sawn timber and logs from countries including Chile, Africa, Malaysia, Romania, Indonesia, Australia, Germany, New Zealand, the USA, and Canada. Each material is meticulously selected and graded to ensure consistency and global quality compliance.

Serving clients across the UAE, Saudi Arabia, Oman, Qatar, Bahrain, Kuwait, and Egypt, DNSM goes beyond just supplying materials—we provide complete solutions. Our team is available to assist with layout planning, logistics management, and project execution when needed.

From luxury hotels and high-rise towers to villas and public infrastructure, DNSM delivers materials that inspire confidence and enhance design.

Built on a foundation of trust and guided by a commitment to innovation, DNSM continues to collaborate with top contractors, architects, and designers to shape the future of spaces across the region.

At DNSM, it's not just about what we build—

Key Features

Strength in every layer,
protection in every detail designed
for all spaces

Anti Bacterial Laminates

These laminates possess the characteristic of inhibiting or killing the growth of bacteria on their surface, thus preventing the spread of harmful pathogens.

Moisture Resistant

Our surfaces are impervious to water or moisture and remain unaffected by their presence.

Surface Protection Tech

SPT developed first time in india by Amulya Mica, gives your laminate additional strength to withstand stains and scratches more effectively.

Post Forming Laminate

Amulya Mica post forming laminates are made to roll in a radius over the edge of a substrate. With an added flexibility a malleability for both forward & reverse bending.

Low Toxicity

Known for their minimal release of harmful toxins and chemicals, our laminates are designed to have low levels of toxic substances and emissions, ensuring a safer and healthier indoor environment.

Heat Resistant Fire Retardant Laminate

Amulya Fire retardant laminate have superior resistance to flame propagation & are designed to perform in demanding environment .This laminate has low propagation of flame a high resistance to steam & delays in temperature rise.

Scratch Resistant

A range of super gloss laminate that offer a high level of resistance to scuff, MAR (micro scratches) & abrasion which maintaining 4 time longer shine then any other used laminate.
Application, it gives no seams around corner & are smooth & evenly laminated. This laminates can be formed into simple cylindrical concave or convex curves.

Impact Resistant

Our surfaces are sturdy enough to endure severe impacts like those caused by hammers.

Low Emission

Characterized by their minimal release of harmful volatile organic compounds (VOCs) into the environment, our laminates are designed to improve indoor air quality by reducing the level of pollutants that can cause health problems.

Termite Proof

This property possesses the characteristic of being impervious to termite infestations, preventing the insects from damaging or feeding on the Laminates and infusing in them long-lasting protection and durability against termite attacks.

10 Years Warranty

Our Laminates provide customers with a warranty that it will remain free from defects for a period of 10 years from the date of purchase.

Synchronized

COLLECTION

Synchronized laminates feature textures that align with their visual patterns, allowing you to feel the authenticity of the surface
